Summary

Professional Full stack Engineer with **2 years** of experience specializing in **Java, Spring Boot, Angular** ecosystem. Experienced in **navigating** large-scale enterprise codebases, optimizing **RESTful APIs**, and leading technical knowledge Transfers to improve team productivity. Passionate about **Robust Backend Architecture, Responsive Frontend Design and Enterprise Logic Refactoring**, with a focus on transforming complex business requirements into scalable, high-performance digital solutions.

Skills

- Java (Core and Advanced)
- Spring Boot
- SQL (MySQL, MSSQL)
- C, C++
- Hibernate / JPA
- HTML, CSS
- Microservices
- JDBC
- Angular

Education

P.S.N.A College of Engineering and Technology, Dindigul

August 2019 – May 2023

Bachelor of Engineering in Computer Science

CGPA: 8.2

Experience

Full Stack Java Developer, Tata Consultancy Services – Chennai, India

May 2024 - Present

Project - Customer Verification Tool (September 2025 - Present)

Domain: Insurance

- Designed and developed the **Customer Verification Tool from scratch** using **Angular** for frontend and **Java Spring Boot** for backend.
- Built responsive Angular UI components to capture and validate customer verification details.
- Developed secure **RESTful APIs** using Spring Boot for processing verification requests and handling business validation rules.
- Integrated frontend and backend modules with optimized **SQL database operations** to ensure efficient customer data processing and faster response time.

Project - License Appointment Registration System (May 2024 - August 2025)

Domain: Insurance

- Developed and maintained backend modules for LARS to manage agent, candidate, and NRF details ensuring accurate licensing records.
- Implemented workflows for agent licensing, appointment creation, and jurisdiction validation improving compliance and operational efficiency.
- Built and integrated RESTful APIs for regulatory processes including training, exam, and fee modules.
- Optimized SQL queries and applied clean architecture principles to improve system performance.

Certifications

- Spring Boot REST APIs Ultimate Course – Udemy
- Java Programming Masterclass - Beginner to Master – Udemy
- Microservices Architecture - The Complete Guide – Udemy
